

Corporate packages 2010: Lets go Go-Kart Racing

Want to feel like a F-1 driver...

R & R Karting offers a unique racing experience in the desert. We are a professionally run, outdoor Go-Karting arena, with no less than 10 top quality German Go-Karts. The track is owned and managed by Go-Karting professionals, who are always on hand to assist. The tar track is an impressive 520m in length, and at speeds of up to 70km/h, is perfect for that adrenaline junky ready to take on any opponent, and show their friends who is king of the track. The lap times are recorded as we make use of a computerised lap time system, ensuring your times are recorded to the split second.

We cater for everybody, for the beginners out there, our professional instructor will provide you with all the assistance required to make your first experience memorable. We have trained marshals on hand, and all drivers receive a helmet and safety instruction. For the more experienced drivers we even rent out a two engine go kart, which speeds up to 100km/h.

Endurance racing, min. 10 drivers, max. 48 drivers

This product is ideal for teambuilding purposes and it is also our most popular product for big groups. First all drivers will drive a compulsory 6 lap practice session. R&R will make the teams according to the fastest lap of each driver, equally dividing the slower and faster drivers over each team. After the teams have been formed the race will be started. You can choose to drive 30 minutes or maximum 2 hours. The goal is to drive as many laps as possible within the given time, but you must also come into our pit lane to change drivers! Each team will make their own strategy. The team that drives the most laps and makes all the minimum required driver changes, wins the race! Standard included in this package is a winner's ceremony on our podium with champagne for the winning team! During the race, there will be live commentating by race control and you can see exactly what happens on our race computer.

Shoot out competition, 10-60 drivers

This product allows you to book very big groups of up to 60 drivers per visit. All drivers will drive min. 6 laps and max. 12 laps (depending on your budget). After all the drivers have had their turn and depending on the group size, we can organize 2 semi finals for the 16 fastest drivers of the day and then a final for the 8 fastest drivers of the day. The final you can ride only 6 laps for example. You can basically form your own races (according to your budget). Ultimately resulting in 1 winner! All results will be printed by our race computer. In this option race starts from the grid are not included though. The winner will be determined by fastest laptime. In order to limit the waiting time for the drivers, the maximum group size per 1 visit is 60 drivers, this will take appr. 2.5 hours in total. Of course you can book more people, but we would advise you to bring them to us in different groups.

Shoot out 6 laps, N\$ 65 pp

Shoot out 8 laps, N\$ 85 pp

Shoot out 10 laps, N\$ 90 pp

Shoot out 12 laps, N\$110 pp
